

Osservatorio Astronomico Regionale Parco Antola Fascia

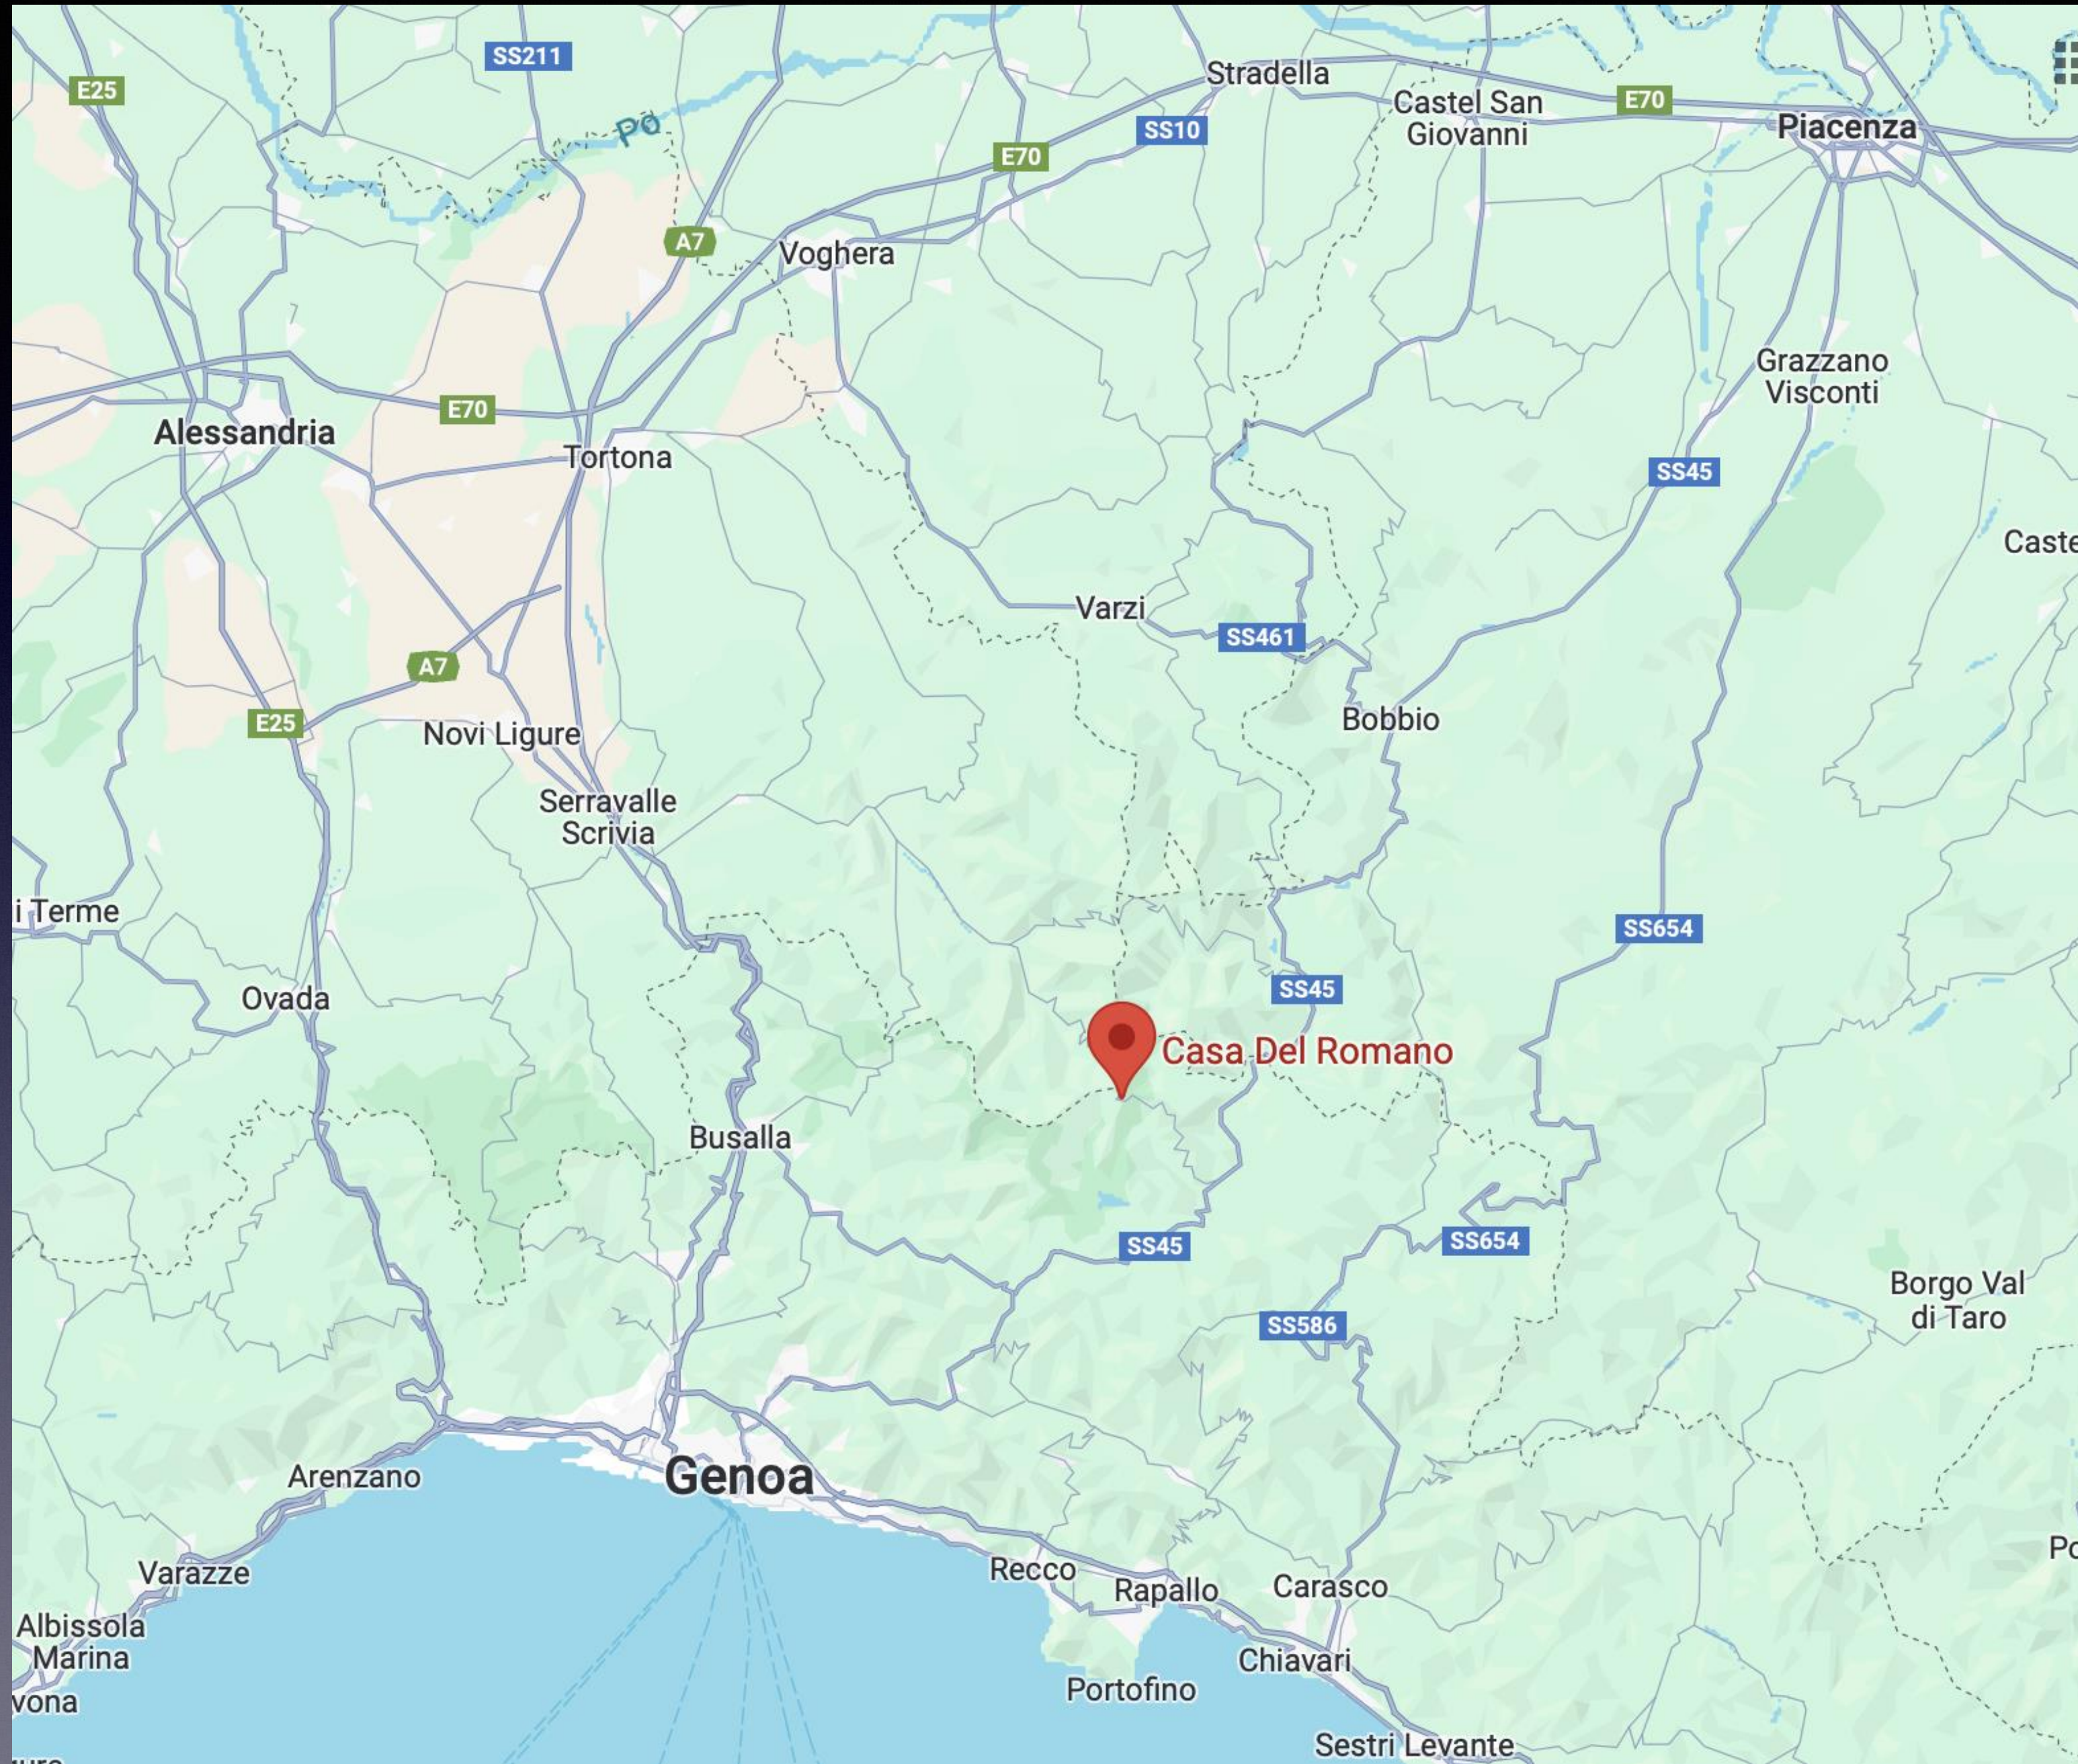

The Starantola Team

- Observatory Built by Regione Liguria, property of the Comune di Fascia community and operated by **Ente Parco Antola** (2.5M€ original investment – EU funds)
- The **University of Genova**, through the interdipartmental structure ORSA operates the Observatory for science programs and higher education (Undergraduate, PhDs, Post-docs).
- The No-profit association **STARANTOLA** opens the Observatory to the general public, schools, and other outreach initiatives.

- Starantola is a **third-sector non-recognised association** formed by volunteers, Undergraduate and graduate students, university professors and professionals in Astrophysics (**currently 28 people**).
- Starantola operates the Observatory through a convention with Ente Parco Antola.
- In 40 public opening in 2023 **more than 2000 customers** visited the Observatory, a very good number consider the short season (April-October) and the maximum number of 50 people acceptable per shift.
